EDUCATION

- **Graphic Era Hill University** Dehradun, India
Bachelor of Technology - Computer Science; GPA: 8.25 September 2021 - June 2025
- **Mata Harki Devi Sr. Sec. School** Sirsa, India
Class 12th; Percentage: 74.6 April 2020 - June 2021
- **Mata Harki Devi Sr. Sec. School** Sirsa, India
Class 10th; Percentage: 79 April 2018 - June 2019

SKILLS SUMMARY

- **Languages:** Java, JavaScript, HTML/CSS
- **Frameworks:** Vue.js, Next.js, NodeJS, FastAPI
- **Tools:** Git, PostgreSQL
- **Concepts:** Data Structures, Algorithms, Object-Oriented Programming
- **Soft Skills:** Collaboration, Problem Solving, Communication

EXPERIENCE

- **Bidfox.ai** Remote
Frontend Developer Intern (Full-time) May 2024 - Aug 2024
 - **UI & API Integration:** Developed scalable and high-performance UI components using Vue.js, improving responsiveness by 30%.
 - **Real-Time Bidding:** Integrated WebSocket for instant bid updates, ensuring a dynamic auction experience.
 - **E-Procurement:** Developed core functionalities to streamline the auction process for buyers and suppliers.
 - **Optimization:** Refactored components for modularity, improving code reusability and maintainability.
- **Seclookup** Remote
Frontend Developer Intern (Part-time) May 2023 - Sep 2023
 - **UI & UX Development:** Designed and built an intuitive interface for efficient domain scanning.
 - **API Integration:** Connected backend services for real-time domain analysis and data flow.
 - **Secure Authentication:** Implemented robust authentication to enhance security and user experience.

PROJECTS

- **AgriMarket Exchange Platform – Next.js, Node.js, Express.js, PostgreSQL, Auth0 -  GitHub:**
Developed a full-stack web platform enabling farmers to list products, consumers to connect directly, and retailers to participate in auctions for bulk purchases. Built a scalable backend using Node.js, Express.js, and Prisma with PostgreSQL for efficient data management. Implemented Next.js and Tailwind CSS for a responsive UI. Integrated Auth0 for secure authentication and established a CI/CD pipeline for automated deployment.
- **Grocery Web App – Reactjs, NodeJS, Sanity, Stripe -  GitHub  Live:**
Developed a grocery shopping platform enabling users to browse products, add items to their cart, and complete purchases. Integrated Auth0 for authentication, enhanced product browsing, and implemented Stripe for secure payments.
- **Movies Recommendation App – FastAPI, React.js -  GitHub  Live:**
Built a Movies Recommendation App with FastAPI and React.js, utilizing content-based filtering to suggest similar movies based on user input. Designed and integrated APIs for data retrieval, optimizing recommendation speed for a smooth user experience.
- **Virtual Assistant – FastAPI, React.js -  GitHub  Live:**
Engineered a Virtual Assistant powered by FastAPI and React.js, featuring a 3D virtual voice assistant model that allows real-time voice interactions. Integrated ChatGPT, Google Text-to-Speech, and speech recognition technologies to ensure smooth and responsive communication.

HONORS AND AWARDS

- Semi-finalist at Hack-o-Holic 2.0 for developing a Health Prediction System.
- Ranked among the Top 5 (out of 25) teams in Blockathon, Cognizance'23, IIT Roorkee for creating a Counterfeit Detection System.
- Ranked among the Top 10 (out of 60) teams for the G20 Symposium on Digital Agriculture 2023.
